

Manifesto

Why appoint me for this role?

I am currently studying level 3 extended diploma in animal science within the animal department on campus. Currently coming to the end of my first year of my course from which I have thoroughly enjoyed and appreciate all of my lectures for what they have taught me and the support they give.

I believe I am suited for this role, as I am a hard working individual from whom takes pride in my work, whether that be at my two small side jobs: the pub and the cafe or within the work I put into my assignments and work at college.

Since going for this position I took it upon myself to branch out to the students and staff to see if any improvements or suggestions can be made here at Hartpury, along with the great accepts of Hartpury. One of the main issues from which was reoccurring was the graze cafe/restaurant, from both staff and students. I believe that this is definitely one main problem that the governing team will come across here at Hartpury, due to the food being under cooked, rudeness from the staff to both students and staff members and the prices of the food etc.

I have high hopes to make Hartpury a safe and enjoyable environment for all, staff and students university and college and hope to progress my passion and ideas with the team.

Yours sincerely
Megan Davies
