

Hello! My name is Vicky Wight, I am standing to be your 2019/2020 Vice President

I'm running to provide opportunities for all students across campus to improve their personal and professional development.

I joined Hartpury to start my MSc in Applied Strength & Conditioning, in September following a couple of gap years, after finishing my Degree in Exercise and Sports Science. Since then I have been coaching in the Women's Football Academy and taken in the role as Women's Football Club Captain.

Coming to Hartpury from a unique career and education path has not only opened my eyes to the diversity of the opportunities at Hartpury, it also gives me the chance to draw on my previous experiences, whilst representing the views of the students here.

INCREASED NETWORKING OPPORTUNITIES

Having graduated from University already, I have witnessed first hand the hurdles in breaking into the world of work, within your career path. Increasing opportunities for students to get their foot in the door whilst still studying, creates strong relationships with future employers and humanises the process.

INTERACTION& ENGAGEMENT

Working towards a cohesive environment at the #HART of Hartpury!

My beliefs around success in any field are centred around teamwork and the interacting with the experiences of the people around you. Utilising the opportunities Hartpury has to offer and ensuring all students feel like they are able to make the most of their time here, is a key part of this.

INCLUSION

Making sure everyone's voice is heard!

Working closely with the student that feel like their on the outside. Meeting and interacting with students that feel underrepresented to ensure that everyone feels valued and appreciated across their time at Hartpury.

Estranged, LGBTQ+, BAME, Disability, Ethnic Minority students & everyone inbetween, vote me for VP and you will be represented.
